HOW DOES IT WORK?

The Question

- Surface Web (tenths of one percent) vs. Deep Web
- Dark Web
 - Part of the Deep Web
 - Part of the darknet
- Drugs, fake documents...
- **How is it possible, that it works?**

Prediction from 1998

- Tom Bell, 1998: we can expect to see **polycentric law** in the new millennium in three areas:
 - Alternative dispute resolutions,
 - Private communities and
 - Internet

The Dark Web: How?

- P2P connection
- Cryptocurrencies
- Special browser
 - Invitation
 - Information
- Cryptography

Silk Road

- 2011
 - Dread Pirate Roberts (Ross Ulbricht)
 - \$1.2 billion in revenues and \$79.8 million in commission
 - closed by authorities in October 2013
-
- Silk Road at the end of 2013 provided more than 13 000 listings and together with other Dark Markets listed over 18 000 products.
 - It took only a year to increase this number to 65 000 products.
 - After Silk Road Dark Markets grew bigger, not the opposite.

Silk Road Security

Evolution

- 1) Ethical background
- 2) Alternative dispute mechanism
- 3) Technological progress

Ethical background

- “Now, my goals have shifted. I want to use economic theory as a means to abolish the use of coercion and aggression amongst mankind... The most widespread and systemic use of force is amongst institutions and governments, so this is my current point of effort. The best way to change a government is to change the minds of the governed, however. To that end, I am creating an economic simulation to give people a first-hand experience of what it would be like to live in a world without the systemic use of force.”
- -- Ross Ulbricht
- „Hitmen will never be allowed, as we don't want this kind of attention. We don't allow services that are here only to hurt people, like hitmen“
- -- alpha02

But...

- Still some child porn, zoophilia, crushing, rape and others...
- Porn against your will
